## REPORT TO THE PRESIDENT

The PRESIDENT,  
*The White House.*

SIR: A public hearing on the Code of Fair Competition for the Athletic Goods Manufacturing Industry was conducted in Washington on November 10, 1933, in accordance with the provisions of the National Industrial Recovery Act. This Code was submitted by the Athletic Goods Manufacturers Association, located in New York; the National Association of Golf Club Manufacturers, located in New York; the Golf Ball Manufacturers Association, located in Providence, Rhode Island; the Athletic Shoe Manufacturers Association, located in Cincinnati, Ohio; the Tennis Racket Manufacturers Association, located in North Attleboro, Massachusetts; and the Golf Bag Manufacturers Association, located in Chicago, Illinois. These Associations claim to represent approximately 87 percent of the Industry.

After the Code was submitted by the above-named Associations the Sporting Goods and Athletic Wear Association signified their desire to come under the provisions of the Code for the Athletic Goods Manufacturing Industry. They were represented at the hearing and participated in the formulation of this Code.

The maximum hours established in this Code are forty (40) per week for employees engaged in accounting, clerical, stenographic, or similar work, with a provision for sixteen (16) additional hours in any chosen thirteen (13) week period. Employees engaged in plant, factory, or mechanical work are not permitted to work in excess of 1,040 hours in any six (6) month period, and are to be paid time and one third for all hours worked in excess of eight (8) hours in any one day or forty-four (44) in any one week, and that no such employee shall be permitted to work in excess of ten (10) hours in any one day or forty-eight (48) hours in any one week.

Exceptions as to hours are granted to employees in an executive, managerial, supervisory, or technical capacity, and their immediate assistants, who receive \$35.00 per week or more, and to outside salesmen and emergency workers. Chauffeurs, engineers, firemen, water tenders, oilers, or maintenance men are not permitted to work in excess of forty-eight (48) hours per week. The maximum hours for watchmen are fifty-six (56) per week.

In 1929 this Industry operated approximately fifty (50) hours per week and in 1931 approximately forty-eight (48) hours per week. During 1929 approximately 10,793 wage earners were employed in the Industry and in 1931 there were approximately 10,176 wage earners. It is estimated that a forty-five (45) hour week would bring employment back to the 1929 level. This Industry should be commended on the establishment of a forty (40) hour week, inasmuch

as it will employ even more workers than were employed in 1929. On the basis of the forty (40) hour week approximately 2,035 workers will benefit through reemployment.

The Code establishes minima ranging from \$14.00 to \$15.00 per week according to locality, and provides for adjustment of wages above the minimum. The minimum wage for employees paid on an hourly basis is thirty-five (35) cents per hour, with exceptions for workers between 16 and 21 years of age who are engaged in light work, such as messengers and junior clerks; also for beginners and apprentices. The minimum for these classes of employees is twenty-eight (28) cents per hour. Handicapped persons doing light work and whose earning capacity is limited may be employed at rates below the minimum, provided the employer obtains a certificate from the State authority designated by the United States Department of Labor. The number of these subminimum employees is not to exceed 10 percent of the total number of a member's employees. Provision is made that female employees performing substantially the same work as male employees shall receive the same rate of pay. A wage differential of two and one half cents per hour is allowed for the Southern district.

Home work is to be eliminated from this Industry, except that for a period of one year from the effective date of this Code low-grade baseballs and playground balls may be sewn at home, provided that the compensation therefor is not less than the rate of pay in effect for such work on July 15, 1929, plus an increase of 20 percent. It is further provided that the Code Authority shall investigate the home work problem within ninety days after the effective date of this Code and report its findings to the Administrator. It would seem inadvisable to entirely eliminate home work at this time for the reason that it would not increase employment in the industry and would only serve to work a hardship on several small communities where this type of work is being done on an extensive scale.

Wages in this Industry represented 22.5 percent of the value of products in 1929, as compared with 16.5 percent for all industries combined. In 1931 wages in this line of activity represented 22.8 percent of the value of products, as compared with 17.5 percent for combined industries.

Wage earners in 1931, on a 48-hour basis, were paid an average of 44.2 cents per hour, or \$21.22 per week.

The increase in price to the purchaser should not represent more than 12 percent by the increased wage rates and shortened hours. If wages in this Industry are maintained at the 1929 hourly average, i.e., 46.8 cents per hour, and on the basis of a 40-hour week, the total pay roll would increase approximately three million dollars, or 26.5 percent, over the 1931 pay roll total.

The Deputy Administrator in his final report to me on said Code having found as herein set forth and on the basis of all the proceedings in this matter;

I find that:

(a) Said Code is well designed to promote the policies and purposes of Title I of the National Industrial Recovery Act, including removal of obstructions to the free flow of interstate and foreign commerce which tend to diminish the amount thereof and will pro-

vide for the general welfare by promoting the organization of industry for the purpose of cooperative action among the trade groups, by inducing and maintaining united action of labor and management under adequate governmental sanctions and supervision, by eliminating unfair competitive practices, by promoting the fullest possible utilization of the present productive capacity of industries, by avoiding undue restriction of production (except as may be temporarily required), by increasing the consumption of industrial and agricultural products through increasing purchasing power, by reducing and relieving unemployment, by improving standards of labor, and by otherwise rehabilitating industry.

(b) Said Industry normally employs not more than 50,000 employees; and is not classified by me as a major industry.

(c) The Code as approved complies in all respects with the pertinent provisions of said Title of said Act, including without limitation Subsection (a) of Section 3, Subsection (a) of Section 7, and Subsection (b) of Section 10 thereof; and that the applicant associations are trade associations truly representative of the aforesaid Industry; and that participation in the selection or activities of the Code Authority after thirty days from the effective date of this Code shall be contingent upon their amending their respective constitutions and bylaws to the satisfaction of the Administrator.

(d) The Code is not designed to and will not permit monopolies or monopolistic practices.

(e) The Code is not designed to and will not eliminate or oppress small enterprises and will not operate to discriminate against them.

(f) Those engaged in other steps of the economic process have not been deprived of the right to be heard prior to approval of said Code.

This Industry has cooperated in a most satisfactory manner with the Administrator in the preparation of this Code. From the evidence adduced during this hearing and from recommendations and reports of the various Advisory Boards, it is believed that this Code in its present form as approved represents an affective, practical, equitable solution for this Industry and for these reasons this Code has been approved.

Respectfully,

HUGH S. JOHNSON,  
*Administrator.*

Further action by the Code Authority or of any agency thereof, may be held in abeyance by the Administrator pending his final determination of the matter under investigation.

#### ARTICLE VII—UNFAIR TRADE PRACTICES

The following practices enumerated in this Article VII shall constitute unfair methods of competition for all members of the industry and are prohibited. In addition thereto the practices listed in Schedules A, B, C, and D attached hereto and are made a part of this Code shall apply, respectively, to the following divisions of the Industry:

Schedule A shall apply only to manufacturers who produce and/or wholesalers who import balls, implements, and equipment used in any or all of the athletic games and sports enumerated below, except those used for the building and/or maintenance of the courts, fields, grounds, and pools where such games are played.

(a) Football, basket ball, soccer, rugby football, volley ball, water polo, and other athletic games using an inflated ball.

(b) Baseball, including all the variations thereof, played with a hard or soft ball and bat.

Schedule B shall apply only to manufacturers who produce and/or wholesalers who import golf balls and golf clubs.

Schedule C shall apply only to manufacturers who produce and/or wholesalers who import tennis racquets and tennis frames, including racquets and frames for the following related games: Court tennis, badminton, racquets, squash racquets, and squash tennis.

Schedule D shall apply only to manufacturers who produce and/or wholesalers who import especially constructed athletic shoes as defined in Article II, Section 2 of this Code.

SECTION 1. No member of the industry shall give, permit to be given, or offer to give, anything of value for the purpose of influencing or rewarding the action of any employee, agent, or representative of another in relation to the business of the employer of such employee, the principal of such agent or the represented party, without the knowledge of such employer, principal, or party. Commercial bribery provisions shall not be construed to prohibit free and general distribution of articles commonly used for advertising

except so far as such articles are actually used for commercial bribery as hereinabove defined.

SEC. 2. No member of the industry shall pay any money or make any gifts to athletic organizations, leagues, associations, athletes, or persons prominent in any of the various lines of sport to induce such athletic organizations, leagues, associations, athletes or persons to use, recommend, or adopt as "official" the athletic goods or equipment of such member, and then advertise that such athletic organizations, leagues, associations, athletes, or persons use, recommend, or have adopted as "official" such athletic goods or equipment without disclosing that such organizations, leagues, associations, athletes, or persons were the recipients of money or gifts from such member, with the tendency to injuriously affect the business of competitors.

SEC. 3. No member of the industry shall advertise that the winners of athletic competitions, or other individuals prominent in any of the various branches of athletics, use or have used the athletic goods or equipment of said member where such use is or has been induced by gifts or payments of money or is in any way obligatory, unless such advertisement shall also show that such winners or other individuals were the recipients of gifts or payments from such member or were obligated to use such athletic goods or equipment, where the tendency is to injuriously affect the business of competitors.

SEC. 4. No member of the industry shall give anything of value to any person employed in a capacity involving special trust (such as instructor, director of athletics, or advisor in any particular line of sports) without the knowledge of his employers, upon the condition or understanding, expressed or implied, that its goods be recommended or used by such person in preference to the athletic goods or equipment of a competitor or competitors of such member, with the tendency to injuriously affect the business of competitors; provided, that nothing in this section shall prevent any member of the industry from selling its goods to any such person upon whatever terms it sees fit, but without any condition or understanding, expressed or implied, as to the recommendations or use of said athletic goods or equipment, and provided, further, that nothing in this section shall be construed to alter in any way the provisions of Section (1) of this Article.

SEC. 5. No member of the industry shall use the names of prominent athletes on athletic goods or equipment used in the particular branch of athletics engaged in by said athletes when said athletes did not design or do not bona fide endorse or do not themselves bona fide use said athletic goods or equipment, and where from the use of said means there is a tendency and capacity to induce purchasers of said athletic goods or equipment to purchase said athletic goods or equipment in the belief that the same are bona fide used or endorsed, or were designed by said athletes, with the tendency to injuriously affect the business of competitors, provided that nothing contained herein shall be construed to deprive any person of any right which may be enjoyed under any existing law.

SEC. 6. No member of the industry shall falsely advertise or falsely represent that an athlete prominent in a particular line of sports or athletics, designed or uses or endorses certain athletic goods or equipment, with the tendency and capacity to deceive purchasers or pro-

spective purchasers and the tendency to injuriously affect the business of competitors.

SEC. 7. No member of the industry shall lease, sell, or contract to sell athletic goods or equipment, whether patented or unpatented, for use, consumption, or resale within the United States, or fix a price charged therefor, or discount from, or rebate upon such price, on the condition, agreement, or understanding that the lessee or purchaser thereof shall not use or deal in the athletic goods or equipment of a competitor or competitors of the lessor or seller, where the effect of such lease, sale, or contract for sale, or such condition, agreement, or understanding may be to substantially lessen competition or tend to create a monopoly in any line of commerce.

SEC. 8. No member of the industry shall either directly or indirectly discriminate in price between different purchasers of commodities, where the effect of such discrimination may be to substantially lessen competition or tend to create a monopoly in any line of commerce; provided, that nothing herein contained shall prevent discrimination in price between purchasers of the same class on account of differences in the grade, quality, or quantity of the commodity sold, or that makes only due allowances for differences in the cost of selling or transportation, or discrimination in price in the same or different communities made in good faith to meet competition; and provided further, that nothing herein contained shall prevent persons engaged in selling the products of this industry in commerce from selecting their own customers in bona fide transactions and not in restraint of trade.

SEC. 9.
